## Safety Notices

- Before using your earphones, read the included manual carefully and store it for future reference.
- Fully charge your earphones before using them for the first time.
- Charge your earphones if you have not used them for over two weeks.
- Use only a certified adapter made by qualified manufactures .
- If your device fails to discover your earphones, check whether you have enabled pairing on your earphones. Pairing may be disabled if your earphones have not been paired or connected to your device for a long period; if so, enable pairing. If you cannot pair your device, try rebooting it. If you cannot pair your earphones, try rebooting them or resetting them to their factory default.
- DO NOT disassemble or modify your earphones to avoid fire or damage.
- DO NOT expose your earphones to extreme ambient temperatures.
- Avoid using the lights on your earphones close to eyes of children or animals.
- DO NOT use your earphones in a thunderstorm. It may cause your earphones to malfunction and cause an electric shock.
- DO NOT wipe your earphones with oil or other volatile liquids.
- DO NOT listen at high volume levels for long periods to prevent possible hearing loss.
- DO NOT use adapters with an output of higher than 2A to charge your charging case to avoid damaging the charging case.

**IMPORTANT!** Warranty Service will be covered and provided by the point of sales. Please store this ASUS Warranty Information Form and the original purchase invoice in a secured location for future reference. ASUS reserves the right to request this document before accepting repair requests. This does not affect or limit your mandatory statutory rights.

- A. Warranty Period:** This warranty applies for the period defined on the Product support page of ASUS official website at <http://qr.asus.com/support>. The warranty commences on the date the product was first purchased by an end-customer. If proof of purchase cannot be provided, the manufacture date as recorded by ASUS will be deemed to be the start of warranty period.
- B. General:**  
This Warranty applies only if the Product was newly manufactured on the Date of Purchase and not sold as used, refurbished or manufacturing seconds. If the product fails during normal and proper use within the Warranty Period, ASUS will replace the product itself with a new one.
- C. Exclusions from our Warranty Service:**
- (a) The Product has been tampered with, repaired and/or modified by non-authorized personnel;
  - (b) The serial number of the Product, components or accessories has been altered, cancelled or removed;
  - (c) The warranty seals have been broken or altered;
  - (d) Obsolescence;
  - (e) Damage (accidental or otherwise) to the product that does not impact the product's operation and functions, such as without limitation to rust, change in color, texture or finish, wear and tear, and gradual deterioration;
- D. Out-of-Warranty:** If the warranty period has lapsed or if any of the exclusions above apply, your request will be deemed out of warranty and a charge will incur on it.
- E. Warranty and Support:** The warranty service may vary by country; some countries may have fees, restrictions or additional documentation needed on the warranty service.
- F. Privacy:** ASUS conduct privacy practices on your personal information in compliance with ASUS Privacy Policy: Visit [http://www.asus.com/Terms of Use Notice Privacy Policy/Privacy Policy/](http://www.asus.com/Terms_of_Use_Notice_Privacy_Policy/Privacy_Policy/) for further information.

ASUS reserves the right to interpret the provisions of ASUS Warranty Information. The information in this ASUS Warranty Information Form may change without prior notice. To read the entire warranty information, please scan the QR code, visit ASUS Support at <http://qr.asus.com/support>, or visit the ASUS website for the country of purchase.

## Notices

### Federal Communications Commission Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

---

**CAUTION!** Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

---

#### § 15.19 Labeling requirements

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## REACH

Complying with the REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) regulatory framework, we published the chemical substances in our products at ASUS REACH website at <http://csr.asus.com/english/REACH.htm>

DO NOT throw the product in municipal waste. This product has been designed to enable proper reuse of parts and recycling. This symbol of the crossed out wheeled bin indicates that the product (electrical and electronic equipment) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

DO NOT throw this product in fire. DO NOT short circuit the contacts. DO NOT disassemble this product.
